

Levanta Renewables Awards China Energy Engineering Group the EPC Contract for a 166 MWp Solar + 80 MWh BESS Project in the Philippines

Singapore, 9 APRIL 2026 — Levanta Renewables — Southeast Asia’s leading renewable energy platform backed by Actis — today announced the award and signing of an Engineering, Procurement and Construction (EPC) contract with China Energy Engineering Group (CEEC) for the Barotac Solar Power and Battery Energy Storage System (BESS) project in the Visayas, Philippines.

The contract covers the full EPC scope for a 166 MWp solar photovoltaic (PV) facility integrated with an 80 MWh BESS, designed to enhance grid stability and support reliable power supply in the region.

“This award marks an important step in advancing our greenfield portfolio in the Philippines, reflecting Levanta’s end-to-end capabilities across development, financing, construction, and operations,” said Pramod Singh, CEO of Levanta Renewables. *“By combining Levanta’s development expertise with CEEC’s EPC capabilities, we are well positioned to deliver the project to high standards of execution, reliability, and safety.”*

Guo Jizhong, Chairman of CEEC Anhui Electric Power Design Institute Co., Ltd., added, *“We are honoured to partner with Levanta Renewables on this important project. Leveraging our global EPC experience and commitment to quality and safety, we will ensure the successful delivery of this project to the highest standards.”*

Kou Bin, General Manager of CEEC Northeast No. 2 Electric Power Construction Co., Ltd., added, *“We are greatly honoured to join hands with Levanta Renewables on this new energy project. We will fully leverage our professional strengths in overseas EPC services, uphold the highest standards of safety and quality, and work closely with all partners to ensure the project is delivered to the highest level of excellence.”*

The project will support the Philippines’ target of achieving a 35% renewable energy share by 2030, while contributing to the expansion of clean, reliable power capacity in the Visayas region.

About China Energy Engineering Group Northeast No.2 Electric Power Construction Co., Ltd.

China Energy Engineering Group Northeast No. 2 Electric Power Construction Co., Ltd. (hereinafter referred to as CEEC NEPCII) was founded in 1986. Headquartered in Dalian, Liaoning Province, it is a wholly owned subsidiary of China Energy Engineering Corporation Limited and a renowned leading enterprise in China's energy construction sector.

CEEC NEPCII has delivered outstanding performance in traditional energy, new energy, environmental protection, urban infrastructure, operation and maintenance, integrated transportation, and international engineering projects. Its market size, technical strength, and compliance capabilities rank among the top in the industry.

For more information on CEEC NEPCII, visit: <http://www.nepc2.ceec.net.cn>

About Actis

Actis is a leading growth market investor in sustainable infrastructure. Actis invests in structural themes that aim to support long-term, equitable growth in defensive, critical infrastructure across energy transition, digitalisation transition, and supply chain transformation.

Actis believes that the firm's decades of global experience, operational know-how and strong culture allow it to create global sustainability leaders at scale. Actis is a signatory to the Principles for Responsible Investment (PRI), an investor initiative supported by the United Nations.

In October 2024, Actis joined forces with General Atlantic, a leading global growth investor, creating a diversified, global investment platform, together we have approximately \$126 billion in combined assets

under management. Actis operates as General Atlantic's sustainable infrastructure business. This strategic combination further enhances Actis' focus as a leader in global sustainable infrastructure.
